

CHRONIC CARE MANAGEMENT PROGRAM

*Manage Chronic Patients
& Earn Up To
\$150,000 Per Year
For A Typical Primary
Care Physician*

Providing quality chronic care management can be challenging as patients rarely follow their prescribed care plans, leading to non-adherence which requires a lot of time and effort by provider leadership teams. Our Chronic Care Management Service works with any phone to promote behavioral change while monitoring and helping providers easily manage their patients' chronic conditions 24/7. With little effort by the physician and staff, our comprehensive program provides a simple way to achieve clinical and financial benefits.

PROGRAM HIGHLIGHTS:

- Promotes behavioral change and helps manage chronic conditions 24/7 using industry Best Practices™ from organizations such as ADA & ACC
- Clinical and financial benefits with next to no effort by doctor or staff
- Turn-key or software-only solutions (\$0 upfront costs)
- Auto-tracking of care time for reimbursement compliance and real-time feedback
- Developed by Healthcare professionals and meets all Medicare CCM requirements
- Proactive patient monitoring through phones
- Easy systems integration
- Patient-centered care plan generation and personalization

KEY BENEFITS:

IMPROVED OUTCOMES:

- Empowers patients to be more active in their care
- Improves compliance to the prescribed care plan
- Provides automatic feedback and reporting

PRACTICE EFFICIENCY:

- Simplifies Medicare reimbursement process
- Integrates with existing EHR systems
- Increases practice revenue without any extra effort
