

INFECTION CONTROL SOLUTION

Reduce costs
Meet CDC protocols
Promote a safer and healthier facility

The cost of Hospital Acquired Infection (HAI) cases cost hospitals over \$30.5 billion dollars annually according to the CDC. **MDR's™** Partner provides an Infection Control Awareness Training Certification in line with CMS guidelines to all staff and vendor employees who work in healthcare facilities to minimize the risk of HAIs around maintenance, remodeling and new construction-related activities. With over 25 years of experience managing risks and a specializing in reducing HAIs, **MDR's™** Partner will ensure clients will meet all CDC protocols, save valuable time, and enforce safer work practices that will promote a much safer, healthier facility.

PROGRAM OVERVIEW:

➤ Provides a cloud-based program available 24/7 with an infection control awareness certification

➤ Meets CDC protocol, and ensures that clients check **YES** to the following CMS requirements:

1.A.2 ✓ The hospital has evidence that demonstrates the infection Control Officer(s) is qualified and maintain(s) qualifications through education, training, experience or certification related to infection control consistent with hospital policy.

1.A.6 ✓ The hospital has infection control policies and procedures relevant to construction, renovation, maintenance, demolition, and repair, including the requirement for an infection control risk assessment [ICRA] to define the scope of the project and need for barrier measures before a project gets underway.

1.D.1 ✓ Personnel receive job-specific training on hospital infection control practices, policies, and procedures upon hire and at regular intervals.

1.A.2 ✓ The hospital infection control system trains personnel expected to have contact with blood or other potentially infectious material is anticipated on the bloodborne pathogen standards upon hire, at regular intervals, and as needed.

➤ Delivers a safer, healthier facility

➤ Enables a mechanism to enforce safer work practices

➤ Captures the results of entire workforce and provides certification with the successful completion of the program

KEY BENEFITS:

- Cloud-based learning management system (LMS)
- 24/7 unlimited access for staff and vendors
- Video-based HAI-reduction techniques for construction-related activities
- Video training course on bloodborne pathogens
- NO COST to Healthcare Provider
