

READMISSION & CARE TRANSITION MANAGEMENT

"Achieve continuous improvement in clinical outcomes and patient satisfaction while reducing costs."

MDR's™ affiliate is the industry's leader in readmission reduction & management services. Our hosted Readmission & Care Transition Management solution blends innovative Best Practices™ technology with the live interaction of hospital care coordinators to achieve significant reductions in readmissions, while placing minimal demands on clinical IT resources.

SOLUTION OFFERING:

- **Innovative Technology Platform**
Utilizes advanced analytics to calculate the likelihood of readmission for discharged patients, enabling hospitals to devote valuable human and financial resources to the most critically important, at-risk patients.
- **Web-Based Dashboard Reporting**
Documents and monitors the effectiveness of clinical intervention efforts. Provides a platform to help manage, measure and evaluate post-discharge clinical intervention strategies in **real-time**.

SOLUTION HIGHLIGHTS:

- Seamless integration with current hospital operations
- Provides care coordinator with access to critical information
- Leading-edge technology provides hospitals with real-time solutions to stay connected with discharged patients
- Improves patients' quality of life and increases their satisfaction while positively impacting the organization's bottom line

Reasons for Change:

- **The Centers for Medicare and Medicaid Services is targeting hospital readmissions for cost reductions.**
- **One in five Medicare patients is readmitted to the hospital within 30 days of discharge, costing billions of dollars.**
- **Hospitals in the bottom quartile of readmission will suffer significant penalties.**
