

WELLNESS PROGRAM SOLUTIONS

Comprehensive Solution For Practices To Deliver Annual Wellness Visit Program To Medicare Patients

MDR's™ Wellness Program Solutions assist physicians in significantly increasing their practice revenues and predicting risk of chronic disease and catastrophic injury by leveraging the Medicare Annual Wellness Visit. Our team offers a complete solution of patient engagement including education, scheduling and documentation of required reports powered by our Partner's proprietary evidence-based risk stratification engine.

SERVICE OFFERING:

Our team ensures that participating physicians are in 100% compliance with the stringent guidelines/requirements mandated by CMS for this program.

Process Includes:

- Identifying patients eligible for the programs
- Sending postcards out to all eligible Medicare patients
- Calling all eligible Medicare patients and scheduling them
- Gathering preliminary clinical data from the patients
- Ensuring that the patients are reminded of their appointments
- Training the nurse, CMA or mid-level staff to complete the Annual Wellness Visit
- Controlling data quality
- Producing Medicare-approved reports for each patient's chart
- Sending the reports and the data back to the practice for its EMR
- Giving physicians and care coordinators access to the risk prediction scores, HCC RAF Scores and trending outcomes data

KEY BENEFITS:

- Provides physicians and organizations with a comprehensive baseline report detailing modifiable risk factors, preventative goals and measurable data
- Allows healthcare organizations to target patient care while reducing total healthcare costs
- Enables physicians to perform Annual Wellness Visits for Medicare patients with no change in physician workflow and no administrative burden to the practice
- No set-up or monthly fees
- Reduces claims processing workload and quicker return to work
- Generates significant revenue for practices and organizations

Benefits:

- *Utilizes proprietary software to support all work processes and reports*
- *Increased revenues*
- *Identification of chronic disease and injury per patient*
- *Actively calls, schedules and screens and gets 40% - 80% of a practices eligible patients*
- *Complies with 100% of the statutory requirements of CMS*
- *Clinical Triggers keeps physicians continuously updated and maximizes revenues*
